

Wherever Luigi is – that's where the future is!

The reputation, of Luigi 1884 Fonds e.V., and, in particular, the trust in its absolute independence and neutrality, must not be damaged by possible support activities in the public sphere.

Before each decision regarding the giving of support, it is necessary to consider in each individual case whether there is a reasonable relationship between the expected financial benefits from the support commitment and the external impact of the consideration to be provided in return (bearing the logo in the eyes of the outside world as a new sign of the assumption of social responsibility).

The humanitarian imperative has top priority. We treat our sponsors with respect and esteem and maintain our contacts in a trusting manner. High discretion is guaranteed. Confidential information and data will not be passed on to third parties without the consent of the persons concerned. The Luigi 1884 Fund strives to attract supporters from a wide variety of fields. Only the independent and neutral board of Luigi 1884 Fonds e.V. decides on the acceptance of supporting funds.

In this spirit, we also preserve the reputation and integrity of Padre Luigi Scrosoppi, (1804–1884), the worldwide patron saint of all footballers, football fans and stadium visitors. He not only performed a miracle – recognised by Rome – on a teenager in Africa, but also advocated, in particular, for disadvantaged children in Africa and Italy. He took uncared for and unaccompanied children off the streets, occupied himself with them, learned with them, founded orphanages and thus gave them opportunities and prospects for a continued, dignified, life in their home country.

Due to our now increasingly uncertain world, the Luigi 1884 Fund pursues the goal of carrying this paradigmatic example of social responsibility further into the future, even after Luigi's death in 1884. Furthermore, it aims to harness the global emotional power of football to support disadvantaged and unaccompanied children "on the ground" in Africa to give them a future in their homeland. In our now changing world, in which migratory flows from Africa to Europe are unfortunately steadily growing, with many unaccompanied children, we support your assumption of social responsibility with this new initiative. Credo: Wherever Luigi is – that's where the future is!

By signing this Code of Conduct, we undertake to act independently of service providers, party political influences and supporters when implementing the tasks and objectives of Luigi 1884 Fonds e.V.
